

# LAC - Suction Unit 160

## Technical data sheet

### Performance features

Air performance	constant (not controllable)
Air flow rate (unimpeded)	240 m <sup>3</sup> /h
Air flow rate (effective)	160 m <sup>3</sup> /h
Pressure difference	4000 Pa

### Filter

Pre-filter	G4
Service life	up to 300 cuts/filter
HEPA filter	HEPA H13
Service life	up to 2000 cuts/filter
Activated carbon filter	3 m <sup>2</sup>
Service life	up to 10000 cuts/filter

### Power Supply

Voltage	Single-phase 100-230V 50/60Hz
Power consumption	700 W
Connection	Device cable with country specific connection (included in delivery)

### Technical Data

Width / Depth / Height	approx. 390 x 430 x 630 mm
Placement dimensions	approx. 490 x 630 x 630 mm
Connection diameter	Ø 2 inch (Hose included in delivery)
Weight	35 kg
Noise level	56 dB(A)
Environmental conditions	Operating temperature +15 bis +30°C Air humidity 15%-80% non-condensing Dust free environment
